Snowflakes in a present box chosen for this street's theme.

Lightened to bring out the manger. This was a well balanced display.

Color of lights and street themes vary.

Several homes chose a two story Santa to display in their yards.

A two story Grinch, a variety from the Gingerbread Man in Cocoa to a manger with lots of lights. Some houses decorated front and back.

100 feet up to 400 feet for an
overview. Look for bright spots.

Eye level to 60 feet.
