Future  
Research: Can...

## LAANC Authorization

4. Backup any footage on drone SD and replace. Carry a spare SD card in your bag for "Just in case".
5. First aid kit for cuts and penetrations not a bad idea.
6. Check the weather with UAV FORECAST or similar. (UAV is from local airports NOT where you are located, but a good conservative guide)
7. Lay out a flight route with points where photos will be taken and or automated flight sections will be used (Asteroid for example).
8. Pick the parameters for video and photo segments.
9. Pull up a sectional and check for controlled airspaces.
10. Mark controlled airspaces on your flight route, note programs used to prepare for the flight as well as any obstacles.
11. Review Flight Test Community Association (FTCA) or similar Community Based Organization (CBO) rules. A printed copy is nice to carry.
12. As needed, apply for LAANC approval for controlled airspaces. Print out approval texts as they arrive.
13. Unfold the drone and remove the gimbal cover.
14. With the propellers off, do a dry run of the flight route with drone, controller and phone/tablet on. Set function switch as applicable. Switch parameters as needed during the dry run of the route.

I prefer to set my drone to Return to Home (RTH) if the signal is lost or problems occur.

15. Top off the batteries and clean camera/filter lens.
16. Insure IMSAFE (Illness, Medication, Stress, Alcohol, Fatigue, Emotions), you're fully ready for flight, no drugs, rested and ready.
17. Check the drone, controller and phone/tablet (and additional equipment) for any damage or errors. Especially check the blades for nicks, cracks or loose screws. Set screen to full bright for  
day flights

# Robson Ranch A ROBSON RESORT COMMUNITY™

Picture Development

Future Development

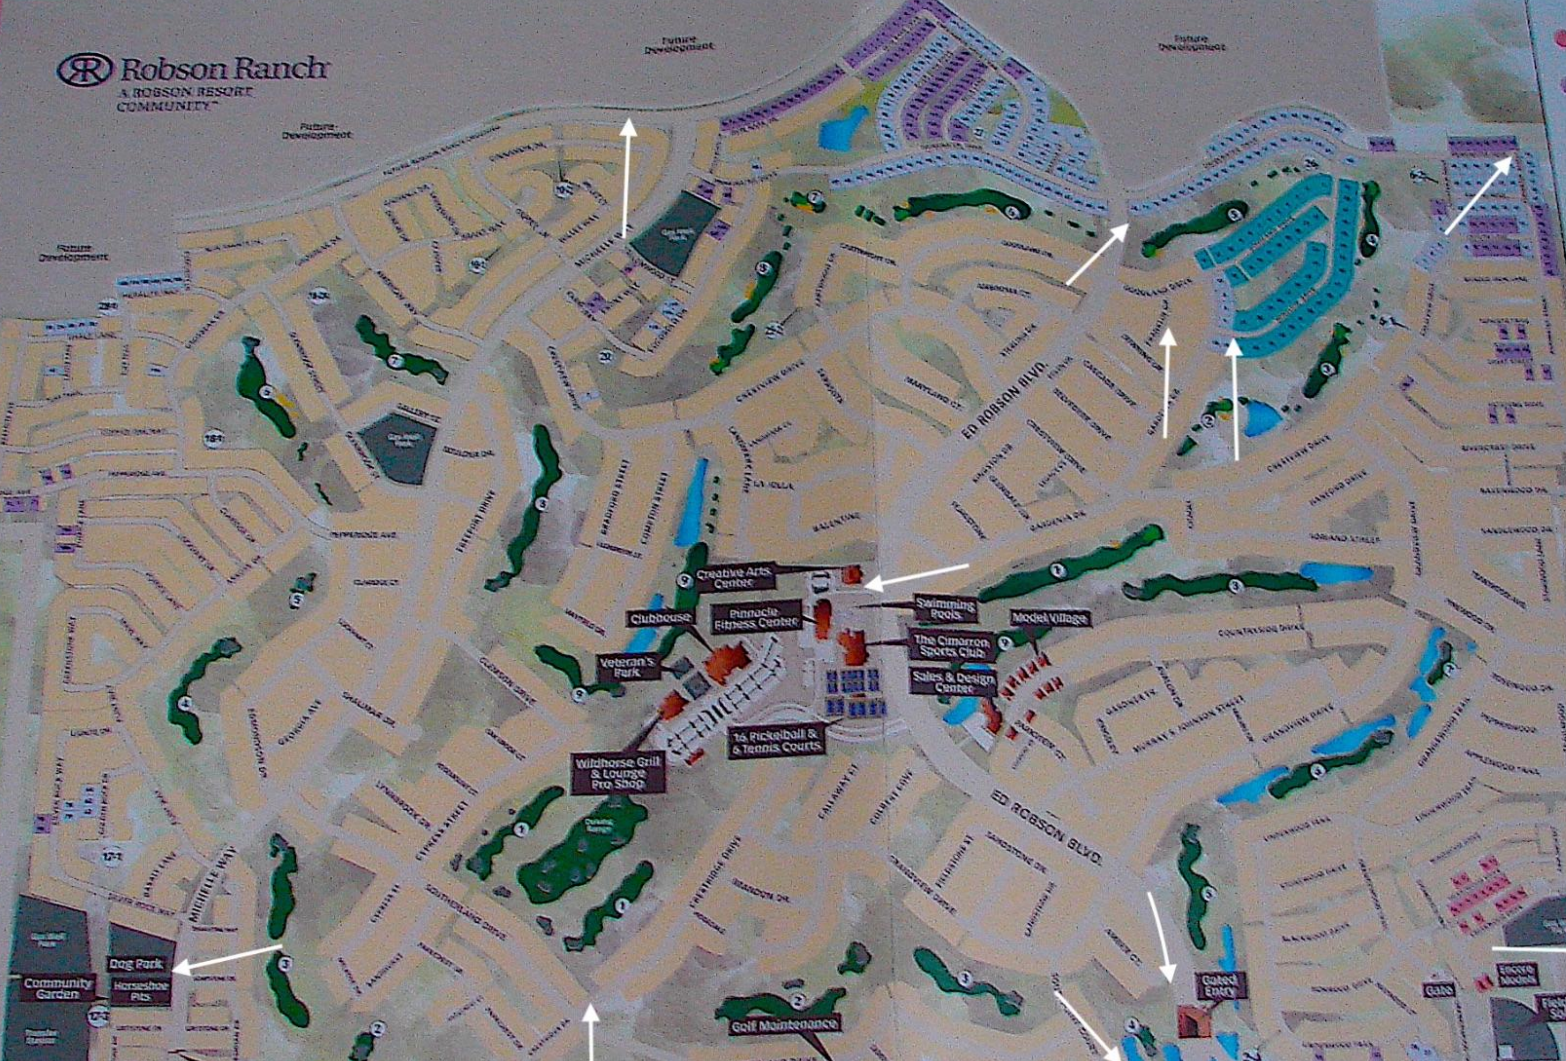

Future Development

- Encore Series
- Tradition Series
- Premiere/Estate Series
- Signature Series
- Sold Out

MAP NOT TO SCALE

The map is an aerial photograph of the Robson Ranch community, showing the layout of the streets, parks, and other amenities. The map is color-coded to show different series of homes: Encore Series (red), Tradition Series (purple), Premiere/Estate Series (blue), Signature Series (teal), and Sold Out (orange). The map also shows the location of various amenities, including the Creative Arts Center, Clubhouse, Pinnacles Fitness Center, Swimming Pools, Model Village, The Cimarron Sports Club, Sales & Design Center, Veteran's Park, 16 Pickleball & Tennis Courts, Wildhorse Grill & Lounge, Dog Park, Community Garden, Horseshoe Pits, Golf Maintenance, and Field of Dreams Softball Field. The map is oriented with North at the top. The map is not to scale.
